

# INSECT EXPERIMENT

Have you ever wondered what kind of insects are in your backyard? Mub and Grub want to help you find out! Grab a flashlight and a magnifying glass and head out to the yard for some creepy, crawly fun. Just remember, look, but don't touch!

## You'll Need:

- ☐ Flashlight
- ☐ Masking Tape or String
- ☐ Magnifying Glass
- ☐ Paper and Pencil

**STEP 1:** Make a 12x12 inch square with masking tape.

**STEP 2:** Wait a couple of hours and while it is still light outside, check out your bug square for any new residents.

**STEP 3:** After dark, head out to the bug square with your parent, a flashlight, and a magnifying glass. Sit down and quietly pull back some grass and flip on the flashlight.

**STEP 4:** Use the magnifying glass to get a closer look at the bugs. How many can you find? Did you find different bugs during the day than at night?

**STEP 5:** Using the paper and pencil, jot down a list of insects you find or create a drawing of one!
